

Environmental, Health, And Safety Manager

Buckley Oil Company, Midlothian (TX)

Buckley is looking for an Environmental, Health, and Safety Manager to help us ensure we are in compliance with all applicable industry and government regulations. This qualified individual would audit our locations and follow up with members of the team to ensure all SOPs are being followed and all needed improvements have been achieved. The position requires an individual that is detail oriented and is driven to keep our employees, our company, and the community safe and healthy. Applicants should have a role-specific bachelor's degree and/or equal experience in the chemical distribution industry.

Duties and Responsibilities include:

- Ensure compliance with OSHA, EPA, DOT, DHS, TABC, DEA regulations
- Create processes and procedures to improve safety and mitigate risk
- Conduct safety audits and meetings
- New hire orientation
- Continual improvement development
- Implement and develop internal policies to ensure employee safety and health
- Track and ensure submittal of permit renewals
- Ensure all regulatory reporting is up to date
- RD code compliance

Qualifications

- Bachelor's degree and/or equal experience in the chemical industry
- Working knowledge of industry regulations
- Organizational skills
- Driven to succeed
- Detail oriented
- Safety first mentality
